 - c. 85%

5. For every \$100 spent on food, how much is spent on takeaways or eating out?
 - a. \$13
 - b. \$17
 - c. \$21

Answers at bottom of StatZing newsletter

2011 Census resource kit

The next census will be held on Tuesday, 8 March 2011.

Teachers can create a classroom session about the 2011 Census using Statistics New Zealand's education resource kit, now available for [downloading in Schools Corner](#). The resource contains a unit plan and associated poster, and supporting activities are also available in print. The resource has themes of special interest to students, including topics on population pyramids, changing employment, cultural diversity, and the census process. Activities are available in English and in Māori.

Did you know you can fill in your census form online?

Collectors will visit every household in New Zealand to deliver Internet access codes and paper forms. They will ask the number of people expected to be in the household

on census night in order to provide the right number of individual forms plus a dwelling form. You can choose to use your Internet access code to complete your form online. If everyone in the household completes their forms online, the collector may not need to call back. Otherwise the collector will call back between 9 March and 20 March to pick up completed paper forms.

Father figures: 2010 – Father's Day

To celebrate Father's Day NZ put together some interesting facts based on 2009 data. Did you know:

- On Father's Day in 2009, about 140 men received a new baby as their present.
- The average age of fathers of new babies was 32 years in 2009, but one in 100 babies had a father aged 50 years or over.
- Today's newborn babies have fathers who are, on average, four years older than their own fathers were when they were born.

The Official 2010 Yearbook

For nearly 120 years, the New Zealand Official Yearbook has been the authoritative source of information about New Zealand, its people, government, and industry.

The New Zealand Official Yearbook 2010 continues this long tradition by providing a comprehensive picture of life in New Zealand. Its 27 chapters feature developments in business, government, education, the environment, health, and the arts, based on the most recent information available from both the public and private sector.

The Yearbook will be on sale at selected bookshops around New Zealand from 20 October 2010 and retails for \$99.99.
