Global New Zealand

International trade, investment, and travel profile

Year ended June 2017

Global New Zealand – International trade, investment, and travel profile is a twice-yearly report co-published by Stats NZ and the Ministry of Foreign Affairs and Trade. It uses annual data for overseas merchandise trade, international trade in services, foreign direct investment, and international travel and migration figures.

External trade – key points

All comparisons are between the year ended June 2017 and the year ended June 2016, unless otherwise stated.

The annual goods and services trade balance for the June 2017 year was a $3.1 billion surplus (4.3 percent of exports).

Exports of goods and services for the June 2017 year were valued at $71.8 billion. Goods exports were worth $49.9 billion, up $549 million from 2016. Much of the increase was due to a rise in the value of milk powder, butter, and cheese.

New Zealand's two-way trade of goods and services (exports plus imports) for the year ended June 2017 was valued at $140.5 billion, up $2.5 billion from 2016.

New Zealand provided $21.9 billion of services to overseas customers in the June 2017 year, up $401 million from 2016. More spending by overseas visitors to New Zealand drove the increase.

Imports of goods and services for the year ended June 2017 were $68.7 billion. Goods imports were valued at $51.1 billion, up $1.1 billion from 2016, led by an increase in vehicles, parts, and accessories. New Zealand purchased $17.6 billion of services during the June 2017 year, up $498 million from 2016.

China was our main goods and services export destination for the year ended June 2017, with a combined goods and services export total of $13.2 billion. At $13.0 billion, Australia was our second-largest export partner.

The European Union was our main source of goods and services imports for the June 2017 year ($11.9 billion). At $11.4 billion, Australia was our second-largest source of imports.

At 30 June 2017, New Zealand's direct investment abroad was valued at $25.4 billion, up $1.7 billion from 30 June 2016.

Foreign direct investment in New Zealand was $103.9 billion at 30 June 2017, up $4.9 billion from 30 June 2016. In the year ended June 2017, Australia was our largest source of foreign investment.

Overseas visitors to New Zealand exceeded 3.6 million for the June 2017 year, up 10 percent from 2016. Australia had the largest increase in short-term visitors for the year, up 6.2 percent to reach 1.5 million visitors.

Trade balance

Annual trade surplus is $3.1 billion

The annual goods and services trade balance for the year ended June 2017 was a $3.1 billion surplus (4.3 percent of exports).

Goods and services trade summary

Source: Stats NZ

The goods trade balance (exports fob – imports vfd) for the year ended June 2017 was a deficit of $1.3 billion (2.5 percent of goods exports).

New Zealand exported $49.9 billion of goods overseas for the June 2017 year, up $549 million (1.1 percent) from 2016. Milk powder, butter, and cheese rose $1.3 billion (12 percent) to $12.5 billion; followed by logs, wood, and wood articles, up $400 million (10 percent) to $4.2 billion.

These rises were partly offset by falls in meat and edible offal, down $554 million (8.4 percent) to $6.0 billion, and wool, down $236 million (31 percent) to $523 million.

New Zealand imported $51.1 billion of goods in the June 2017 year, up $1.1 billion (2.1 percent) from 2016. Rises in a range of commodities led the increase, most notably vehicles, parts, and accessories, up $1.3 billion (19 percent) to $8.0 billion. Aircrafts and parts made the largest downwards contribution, down $409 million (24 percent) to $1.3 billion.

The services balance for the year ended June 2017 was a $4.3 billion surplus (20 percent of services exports).

New Zealand provided $21.9 billion of services to overseas customers in the June 2017 year, up $401 million (1.9 percent) from 2016. Transportation led the increase. Transportation and travel services rose $327 million, to $16.8 billion (76 percent of total services exports). Exports of travel services measure spending by overseas visitors to New Zealand. The largest fall was in personal, cultural, and recreational services – down $123 million to $373 million.

New Zealand purchased $17.6 billion of services during the June 2017 year, up $498 million (2.9 percent) from 2016. Increased spending by New Zealand travellers overseas was the main contributor to the rise. Travel and transportation services rose $571 million, to $10.1 billion for the June 2017 year (57 percent of total service imports). Imports of travel services measure New Zealand travellers' overseas spending.

Top export markets for year ended June 2017

China – was our main goods and services export destination for the year ended June 2017, with a combined export total of $13.2 billion. Goods made up $10.4 billion (79 percent) of our total exports to China, up $1.3 billion (14 percent) from the June 2016 year. Milk powder was our top export commodity, valued at $2.1 billion (up $314 million or 18 percent), followed by logs exports, valued at $1.9 billion (up $418 million or 28 percent). Other commodities showing increases were: butter and dairy spreads at $442 million (up $88 million or 25 percent), fresh milk and cream at $359 million (up $144 million or 67 percent), and cheese $346 million (up 83 million or 31 percent). These rises were partly offset by a fall in wool (down $166 million or 43 percent). The top 20 commodities made up 87 percent of the total value of our exports to China. Services made up 21 percent ($2.8 billion) of the total – down $166 million (5.6 percent) from the June 2016 year.

Australia – goods and services exports were $13.0 billion for the June 2017 year. Goods exports accounted for $8.4 billion (64 percent) of our total exports to Australia, showing little change (down 0.3 percent) from the June 2016 year. Crude petroleum oils had the highest value export, at $515 million (up $48 million or 10 percent). A variety of commodities had increases. Milk powder at $91 million (up $44 million or 91 percent) had the largest increase. Several commodities had

decreases, with silver (down $58 million or 28 percent) and gold (down $53 million or 12 percent) being the largest downward movements. Of the total value of our exports to Australia, 47 percent came from the top 20 commodities. Services made up 36 percent ($4.7 billion) of the total – up $94 million (2.0 percent) from the June 2016 year.

European Union (EU) – goods and services exports were $8.2 billion for the June 2017 year. Goods exports to the EU made up $4.8 billion (58.9 percent) of total exports to the EU, down $548 million (10 percent) from the June 2016 year. The top export commodity to the EU was sheep meat, valued at $1.2 billion (down $257 million or 18 percent). Other commodities that fell included: wool not carded, down $50 million (22 percent) to $179 million, and casein, down $36 million (25 percent) to $108 million. These falls were partly offset by rises in exports of commodities including: apples, pears, and quinces – up $38 million (20 percent) to $227 million, and honey – up $24 million (38 percent) to $86 million.

Goods exports to EU destinations (United Kingdom, Germany, Netherlands, France, Italy, and Denmark) all fell in the June 2017 year. Services made up 41 percent ($3.4 billion) of our total exports to the EU – down $29 million (0.9 percent) from 2016.

United States (US) – goods and services exports were $8.2 billion for the year ended June 2017. Goods exports made up $5.2 billion (64 percent) of our total exports to the US, down $412 million (7.3 percent) from the June 2016 year. Frozen beef meat was the top export commodity to the US, at $1.1 billion, down $234 million (17 percent) from 2016. Exports of casein and cheese fell $57 million (16 percent) and $55 million (49 percent), respectively; wine (our second-largest export commodity to the US in 2017) rose $58 million (13 percent) to $518 million. Services exports made up 36 percent ($2.9 billion) of our exports to the US (up $177 million or 6.4 percent).

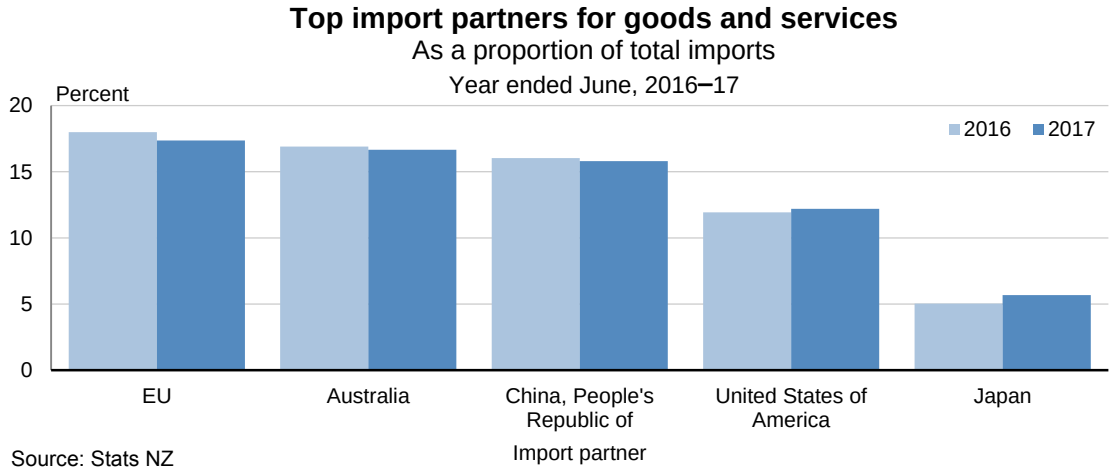

Japan – goods and services exports were $4.0 billion for the year ended June 2017. Goods exports made up $3.1 billion (78 percent) of total exports to Japan – up $44 million (1.4 percent) from 2016. Unwrought aluminium was the top export commodity at $509 million (up $42 million or 9.0 percent). Services made up 22 percent ($879 million) of New Zealand's exports to Japan, up $38 million from the June 2016 year.

Korea – goods and services exports were $2.0 billion for the year ended June 2017. Goods exports made up $1.5 billion (76 percent) of total exports to Korea, down $100 million (6.3 percent) from the June 2016 year. Logs (the top export commodity to Korea in 2017) rose $26 million (7.2 percent) to $393 million. Unwrought aluminium rose $53 million (89 percent) to $113 million. Services made up 24 percent ($468 million) of our total exports to Korea – down $101 million (18 percent) from 2016.

Asia-Pacific Economic Cooperation (APEC) – goods and services exports to APEC countries were $51.5 billion (72 percent) of our total exports for the year ended June 2017, up $1.2 billion (2.5 percent) from 2016. Goods exports to APEC were $37.2 billion, up $1.0 billion (2.8 percent). Milk powder was our highest-value export to APEC at $3.9 billion (up $492 million or 14 percent). Logs exports rose $466 million (24 percent), to $2.4 billion, and butter and dairy spreads rose $455

million (32 percent) to $1.9 billion. These were partly offset by a fall in frozen beef meat – down $323 million (13 percent) to $2.2 billion. Export of services to APEC countries were up 1.6 percent ($221 million) for the June 2017 year, to $14.3 billion.

Top import markets for year ended June 2017

European Union (EU) – was New Zealand's largest source of imports for the year ended June 2017, with a combined goods and services imports total of $11.9 billion (down $155 million or 1.3 percent). Goods imports accounted for $9.0 billion of our total imports from the EU, little changed (down 0.2 percent) from the June 2016 year. Motor vehicles (our highest-value import commodity from the EU) were up $312 million (24 percent) to $1.6 billion. Goods imports from Germany (up 7.1 percent), the United Kingdom (up 7.0 percent), Italy (up 7.1 percent), and Denmark (up 4.4 percent) all rose in 2017, while imports from France (down 27 percent) and the Netherlands (down 10 percent) both fell. Services were $2.9 billion of total imports, down $140 million (4.5 percent) from the June 2016 year. Denmark was the key EU country contributing to the services fall (down 18 percent).

Australia – goods and services imports were valued at $11.4 billion for the year ended June 2017, up $91.5 million (0.8 percent) from 2016. Goods imports made up $6.3 billion of our total imports from Australia, up $40 million (0.6 percent) from the June 2016 year. Aluminum oxide was our top import commodity from Australia, valued at $259 million (down $7 million or 2.7 percent). Motor vehicles were the next-highest import commodity, at $229 million (down $2.7 million or 1.2 percent). Non-crude petroleum oils, waste oil, and biodiesel imports, valued at $141 million, were up $83 million (141 percent), making the largest contribution to the increase in our total imports from Australia. Services made up $5.2 billion of New Zealand's total imports from Australia, up $52 million (1.0 percent) from the June 2016 year.

China – goods and services imports were $10.9 billion for the June 2017 year (up $90.4 million). Goods imports from China made up $10.2 billion of total imports, little changed from 2016 (down $29 million or 0.3 percent). Telephones and cellphones were the top import commodity from

China in the June 2017 year, up $22 million (2.3 percent) to $993 million. Computers were valued at $805 million, up $23 million (2.9 percent). Services made up $699 million of our total imports from China, up $119 million (20 percent) from the June 2016 year.

United States (US) – goods and services imports were $8.4 billion for the year ended June 2017. Goods imports from the US were $5.7 billion of our total imports, down $83 million (1.4 percent). Aircraft valued at $823 million (up $12.3 million or 1.5 percent), were the top import commodity from the US. Services made up $2.7 billion of our total imports from the US, up $450 million (20 percent) from the June 2016 year.

Japan – goods and services imports were valued at $3.9 billion for the June 2017 year. Goods imports made up $3.7 billion of total imports from Japan, up $513 million (15 percent) from the June 2016 year. Motor vehicles were the top import commodity from Japan, and the largest contributor to goods imports, valued at $1.9 billion (up $319 million or 20 percent). Services valued at $200 million for the June 2017 year showed no overall change from the 2016.

Asia Pacific Economic Cooperation (APEC) – goods and services imports from APEC countries accounted for 70 percent ($48.4 billion) of our total imports for the year ended June 2017, up $551.3 million (1.2 percent) from the June 2017 year. Goods imports from APEC were up slightly ($177 million or 0.5 percent), to $37 billion. Services made up $11.3 billion of New Zealand's total imports from APEC countries, up $374 million (3.4 percent) from the June 2016 year.

Foreign direct investment

Stock of direct investment in New Zealand up $4.9 billion

Foreign direct investment measures the value of foreign-owned companies operating in New Zealand. Foreign direct investment in New Zealand was $103.9 billion at 30 June 2017, up $4.9 billion from 30 June 2016.

For the year ended June 2017, the value of foreign direct investment rose for several countries, including Australia, China, Hong Kong (Special Administrative Region), and the United States of America. It fell for Canada and the United Kingdom. The value for each country is based on the country of the immediate investor, rather than the country where the ultimate investor resides.

Direct investment abroad measures the value of New Zealand-owned companies operating overseas. **New Zealand's stock of direct investment abroad was $25.4 billion** at 30 June 2017, up $1.7 billion from 2016.

For the year ended June 2017, the value of New Zealand direct investment abroad rose in Australia and Hong Kong (SAR), but fell for other countries that included the United States of America and Singapore.

See Balance of Payments and International Investment Position: June 2017 quarter for more information.

Migration

Net migration over 72,000

New Zealand recorded a net gain of 72,305 migrants in the year ended June 2017.

- Permanent and long-term arrivals were up 5.0 percent from 2016, to 131,355.
- Permanent and long-term departures were up 5.5 percent, to 59,050.

Overseas visitors to New Zealand were 3.6 million for the year ended June 2017, up 10 percent from 2016. The largest number of short-term visitors, and the largest increase in number, was from Australia – up 6.2 percent, to reach 1.5 million visitors.

Other notable increases in the number of short-term visitors in the June 2017 year included:

- United States at 325,472 (up 26 percent)
- United Kingdom at 244,384 (up 14 percent)
- Malaysia at 56,544 (up 42 percent).

Overseas trips by New Zealand-residents rose to 2.7 million for the year ended June 2017, up 11 percent from 2016. Of short-term traveller departures, 44 percent (1,207,260) listed Australia as their main destination, up 5.4 percent from 2016. Trips to the United States of America rose 18 percent (to 208,620), and to China they rose 19 percent (to 108,940).

1. For detail on the economic groups, see appendix 1.

2. Ranked by total goods and services values for each year.

3. The main components of this figure are the non-sampled estimate from the International Trade in Services and Royalties Survey, estimates for financial intermediation services indirectly measured (FISIM), and travel expenditure by people who excluded country information from arrival or departure cards. We are confident that trade rankings by country would remain unchanged if we broke this figure down further.

4. Only a limited country breakdown is shown in this table, therefore data does not sum to stated totals.

Note: Exports are valued fob (free on board - the value of goods at New Zealand ports before export) and include re-exports.

SAR - special administrative region.

1. Ships bunkering, ships' stores, and passengers' effects are included in the total but removed from the rankings.

Note: Exports are valued fob (free on board - the value of goods at New Zealand ports before export) and include re-exports.
Imports are valued cif (cost, including insurance and freight to New Zealand).

Total	**46,498**	**49,957**	**51,339**	**52,633**	**53,515**

1. Level of processing (LOP) categories may include confidential 10-digit codes, in which case the summed data will exclude the confidential value(s). For more information, please see www.stats.govt.nz/trade.

Note: Totals may not match other merchandise trade as some commodities are excluded from LOP.
Exports are valued fob (free on board - the value of goods at New Zealand ports before export) and include re-exports.
Imports are valued cif (cost, including insurance and freight to New Zealand).

1. For detail on the economic groups, see appendix 1.

2. Level of processing (LOP) categories may include confidential 10-digit codes, in which case the summed data will exclude the confidential value(s). For more information, please see www.stats.govt.nz/trade.

3. Returns of previously exported New Zealand goods are excluded.

Note: Totals may not match other merchandise trade as some commodities are excluded from LOP.

Exports are valued fob (free on board - the value of goods at New Zealand ports before export) and include re-exports.

Imports are valued cif (cost, including insurance and freight to New Zealand).

Appendix 6: Standard definitions and notes

Agricultural exports This uses the standard World Trade Organization (WTO) definition for agriculture. Products include Harmonised System (HS) codes 1–24 inclusive, with the exception of HS 03 and some of HS 16 (processed fish). It also includes casein, hides and skins, and raw wool.

cif Cost, insurance, freight – the market value (or fob equivalent) of the imported goods plus the cost of freight and insurance from the source to destination.

Confidential classifications Under section 37A (d) of the Statistics Act, the Government Statistician may disclose details of external trade, movement of ships, and cargo handled at ports. However, Stats NZ understands that the release of merchandise trade commodity information can, in some cases, place commercially sensitive information in the public domain. This can have detrimental effects upon companies that export and/or import goods. In light of such circumstances, Stats NZ is able to provide a limited form of confidential status for commodity items (at the discretion of the Government Statistician) upon application by a company or business.
In practice, all confidential HS codes are aggregated into the code 9809.00.00.00 in order to protect their confidentiality and to maintain total export and import values. Any aggregations of HS codes below this level, which encompass confidential 10 digit codes, exclude the confidential value(s) for these codes.

fob Free on board – the value of the goods delivered to the port of export and loaded onto a vessel for transportation out of the country of origin. Used for exported goods.

Government services nie These comprise transactions of central government, the central bank, and local government. Both New Zealand government and foreign government transactions are recorded.

Insurance Insurance and re-insurance of all types, including freight insurance. The values recorded alongside insurance measure the value of insurance services provided by an economy to non-residents (the Ministry of Foreign Affairs and Trade (MFAT) 'exports' series or, in Balance of Payments (BoP) terms, the credit item) and the value of insurance services purchased by residents from non-residents' insurers (the MFAT 'imports' series, or BoP debits item). Insurance services is measured by multiplying the total amount of insurance premiums exported or imported by the five-year average domestic service charge ratio. The latter is the ratio of the domestic insurance service charge to total domestic premiums when the service charge is calculated as premiums minus claims.

Merchandise goods Tangible, movable goods crossing the customs frontier.

nec Not elsewhere classified

nie Not included elsewhere

Non-agricultural exports This uses the standard WTO definition. Non-agricultural exports comprise all other exports not included in agricultural exports.

Non-merchandise goods Goods returned after repair or modification in New Zealand; goods on short-term loan or lease; and service transactions, eg computer data tapes and drawings.

Other This item covers those international service transactions not covered under the travel, transportation, insurance, or government services nie items. They include communication services, construction services, financial services, computer and information services, royalties and licence fees, personal, cultural and recreational services, and other business services. Other business services includes merchanting, and other business, technical, and professional services.

Re-exports	This data records goods brought into New Zealand and exported without a 'substantial transformation'. Although not a hard and fast rule, 50 percent value added is used as a yardstick to measure 'substantial transformation'; above that level, the goods are classified as domestic exports. Trans shipment goods are not included. Goods that are re-exported will have previously figured in some form in the import statistics. Re-exports are included in the general tables of this publication.
Services	Items that are generally intangible or not physically movable (eg export education and tourism).
Transportation	Transportation measures the value of transactions in transportation services between residents of different economies. Transportation services are those services provided through carriers (such as ships and aircraft) by their operators, and the goods and services consumed by carriers in the course of their operations. By international convention, exports are foreigners carried by a New Zealand carrier, either here or overseas. Imports are New Zealanders carried by a foreign carrier. New Zealanders carried by a domestic carrier (either here or overseas) constitute a domestic transaction and are not part of international trade. The types of services provided through carriers include the carriage of freight (exports and imports) and passengers. Other transportation services covered include the charter of carriers, and airport and harbour fees. Goods consumed by carriers in the course of their operations, including bunkering and provisioning, are recorded under merchandise goods.
Travel	Travel covers the goods and services acquired from an economy by individuals defined as travellers during their stay in that economy. The international carriage of travellers is not included here but is classified as transportation.
vfd	Value for duty – the market value of imported goods as used for Customs' valuation purposes for tariff assessment in New Zealand.
Additional notes	The merchandise trade statistics are incompatible with the services data. Services data is collected and collated by Stats NZ in line with the principles set by the IMF for BoP data. These principles also have methodology for the collation and presentation of goods data that differs from that of the merchandise goods data used above. The key point is that one should not add the merchandise trade figures to services in order to obtain an overview of 'goods and services trade'. Instead, readers are referred to the full BoP series, which adjust merchandise goods values according to the principles set down by the IMF. In particular, the value of imported goods is adjusted to a fob-equivalent basis in BoP statistics, but not in merchandise trade series. Further information on BoP concepts and methods is available from Stats NZ.
