Preface

International Visitor Arrivals to New Zealand is produced by Stats NZ and sponsored by Tourism New Zealand. It is a monthly report that includes detailed tables and graphs of monthly and annual data showing the number and characteristics of visitor arrivals. Most of the data is presented by country, for a selection of major source countries of visitors to New Zealand.

Visitor arrival data comes from Stats NZ's International Travel and Migration dataset. This dataset is derived from information contained in electronic records supplied by the New Zealand Customs Service, as well as from arrival and departure cards completed by passengers.

This report contains statistics on short-term overseas visitor arrivals, defined as overseas residents arriving in New Zealand for a stay of less than 12 months.

Glossary

Visitor arrivals: overseas residents arriving in New Zealand for a stay of less than 12 months.

Country of residence: the country where the person last resided for 12 months or more before visiting New Zealand.

New Zealand port: the New Zealand port where a passenger was processed by Customs. People may clear Customs at one port after arriving on an international flight into another port, if connections between international terminals are available.

Travel purpose: the reason for the visit as indicated on the arrival card.

Closest port of flight: the last overseas airport of the passenger's flight before arriving into New Zealand. This may not be the person's port of origin, as they may have boarded the aircraft at an earlier port, or come from another port on a connecting flight.

Length of stay: the length of stay in New Zealand. This is initially captured from intentions on the arrival card. Visitors who depart before processing of their month of arrival has been completed have their length of stay recalculated based on their actual stay.

Citizenship: the country of issue of a passenger's passport.

State/province of residence: the subnational area of residence as indicated on the arrival card. This data is only captured for visitors from selected countries.

Notes

International travel and migration data

Visitor arrival data comes from Stats NZ's International Travel and Migration dataset. This dataset is derived from information contained in electronic records supplied by the New Zealand Customs Service, as well as from arrival and departure cards completed by passengers.

Stats NZ processes all arrival and departure cards, and assigns a passenger type to each. These passenger types are short-term overseas visitor, short-term New Zealand-resident traveller, and permanent and long-term migrant. This report contains statistics on short-term overseas visitor arrivals, defined as overseas residents arriving in New Zealand for a stay of less than 12 months.

Information derived from arrival and departure cards, including passenger type, is captured automatically for nine out of 10 records by Stats NZ's imaging system.

The statistics in this report are based on final counts. They relate to the number of passenger movements, rather than to the number of people – that is, the multiple movements of individual people during a given reference period are each counted separately.

Sampling error

Visitor arrival totals published in this report are actual counts. However, all other figures are derived from only a sample of arrivals, and hence may contain sampling error. Caution should be used when interpreting small numbers where sampling error may exist.

Imputation of 'country of residence' for visitor arrivals who have not stated a response on their arrival card, began in August 2016. Some of the increase in travel from a country could be due to this improved methodology, rather than an actual increase in arrivals from that country.

Selection of data published in this report

Because of sampling error, as well as the size limitations of the tables, categories within some variables have only been included if they meet certain limits. The rules for inclusion depend on the variable.

In the key characteristics tables for each country, the restrictions are:

Purpose: Five categories (holiday, visiting friends & relatives, business, education, and conferences & conventions) are always shown, so the travel purpose graph is consistent between countries. The 'other' and 'not stated' categories are not shown.

New Zealand port: There must be 500 or more arrivals in the most recent time period, or an average of 500 or more over the last two periods. A minimum of one NZ port must be included, with a maximum of eight NZ ports.

Closest port of flight: There must be 500 or more arrivals in the most recent time period, or an average of 500 or more over the last two periods. A minimum of one overseas port must be included, with a maximum of 10 overseas ports.

Citizenship: There must be 500 or more arrivals in the most recent time period, or an average of 500 or more over the last two periods. A minimum of one citizenship must be included, with a maximum of four citizenships.

State/province: There must be 500 or more arrivals from that province in the most recent time period, or an average of 500 or more over the last two periods. At least three states/provinces must be included for each country, as well as the 'not stated' category. The not stated category is included because of a high rate of non-response to this question from some countries.

International Travel and Migration information release: monthly

<https://www.stats.govt.nz/insights?filters=International%20travel%20and%20migration%2CInformation%20releases>

The monthly first release of final international travel and migration data. Tables are accompanied by commentary and a media release highlighting key data.

Provisional International Travel Statistics: weekly

http://archive.stats.govt.nz/browse_for_stats/population/Migration/provisional-international-travel-statistics.aspx

Provisional statistics on total visitor arrivals, and visitor arrivals from ten major source countries, are released on a weekly basis. Figures are normally released at 2pm on a Friday, covering arrivals up to the Sunday 12 days before the day of release.
