

Register of parliamentary staff, government officials, and media who received *Property transfer statistics* under embargo

Stats NZ has a policy about information releases, embargoes, and sanctions available on its website. Generally, there is no prior access provided for any stakeholders, including Government Ministers. However, some 'market-sensitive' or 'topical releases' may be made available under embargoed conditions.

Property transfer statistics was considered by the Deputy Government Statistician, Insights and Statistics, to be a sensitive release. Underlying data is supplied by Inland Revenue and Land Information New Zealand.

Since July 2020, we have sent embargoed quarterly property transfer statistics release documents by secure email to Land Information New Zealand, Inland Revenue, and their ministers via selected key advisers in the 24 hours before the release. Selected government officials also received documents under the same embargo conditions.
